BUS TRANSFORMATION PROJECT

District of Columbia

Overview

- 1. The Need to Transform the Bus
- 2. Bus Transformation Strategy
- 3. Action Plan
- 4. Next Steps

Congestion, affordability, and mobility are major problems in the DC region that will only continue to grow

Bus's Value Proposition

Bus is a major part of the region's transportation system, carrying 600,000 daily trips

- Much of our region's population depends on bus as their only way to travel
- Rapid, effective bus service is fundamental to our region's prosperity
- Most cost-effective and efficient way to move the most people quickly, safety, and rapidly

Core challenges

- Meeting customer needs
- Keeping up with changing technology
- Coordinating across the region
- Maintaining a sustainable cost structure
- Deciding how service is paid for

2

Collaborative transformation: a broad and deep process

Quality bus service is a shared responsibility:

- Bus service providers
- Departments of transportation who own, operate, and enforce streets and curbs
- Funding partners

Working together is critical to ensuring the bus system meets customer needs

More than a year of public and stakeholder input, including:

- 140 participants in September 2018 Kickoff Summit
- 8,800+ public survey responses
- 13 Metrobus operator listening sessions
- 4 Focus Groups
- 23 Executive Steering Committee meetings*
- 16 Technical Team meetings*
- 8 Strategy Advisory Panel meetings*
- 45 External project briefings
- 3 Public Open House events
- 33 Pop-up events
- 14 WMATA Leadership Team meetings*
- 285 Social media posting
- 312,000 people reached via social media

Strategy Recommendations

The strategy to achieve the vision and goals is built around four recommendations

1	Frequent and Convenient Bus Service	Provide frequent and convenient bus service that connects communities and promotes housing affordability, regional equity, and economic growth
2	Bus Priority on Roadways	Give buses priority on roadways to move people quickly and reliably
3	Customer Experience	Create an excellent customer experience to retain and increase ridership
4	Task Force to Implement the Strategy	Empower a publicly appointed Task Force to transform bus and lead the implementation of a truly integrated regional system

What is Different in the Final Strategy

Changes Based on Feedback from the District of Columbia:

- Removed recommendation to 'transfer service', but included recommendation for the WMATA Board to revisit the definition of "regional" and "non-regional" service in coordination with jurisdictions
- Delayed the start of the Task Force to enable further discussion in the region. The Action Plan identifies existing entities to advance recommendations while discussions seek to improve several aspects of bus governance:
 - Accountability
 - Visibility
 - High-Level Collaboration
 - Regional Solutions to Regional Problems

What is Different in the Final Strategy

New Recommendations Based Public Feedback:

- A regional rider feedback platform as a response to public input that riders should be a part of shaping their system
- On-board safety for drivers and passengers
- Bus cleanliness and comfort
- Customer service

Other Changes:

- Four key recommendations from six in the draft strategy still incorporated the elements supported by the District including:
 - Creating an excellent customer experience
 - Providing frequent and convenient bus service
 - Prioritizing bus on the region's roadways (including coordination with VDOT)
- Removed consolidate back-office functions

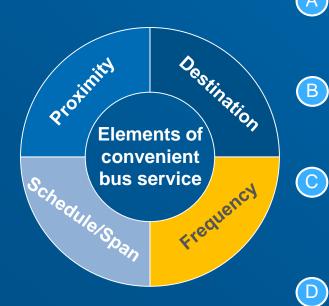

Provide frequent and convenient bus service that connects communities and promotes housing affordability, regional equity, and economic growth

location and time of day

focused bus system*

the Metro Board's Authority

* Through a Mass Transit Plan as required by the WMATA Compact

Leverage existing efforts by transit providers to operate flexible on-demand services to supplement the fixed route network where and when warranted

Establish regional standards across bus systems

Collect and share standardized bus operations

Collaboratively restructure the region's bus

and performance data across agencies to improve

network to create the most efficient and customer-

Cooperatively assess Metrobus' current service definitions and funding allocation formula using

to provide consistent bus service, tailored by

transparency and better plan bus service

These recommendations will result in:

- Increased **responsiveness** to customer demand for service
- Increased access to transit
 (frequency, schedule, span)
- Convenient service that is direct and coordinated among providers
- Increased bus ridership
- More efficient use of resources

BusTransformationProject.com

Give buses priority on roadways to move people quickly and reliably

Obtain commitments from state and local agencies (including roadway owners) to **adopt consistent guidelines**, bolster jurisdictional capital spending, and expedite coordinated implementation of bus priority

Implement enforcement policies that **establish bus priority** and result in reliable and fast service

Establish a capital program at Metro that **supports accelerated implementation of bus priority projects** including BRT

Support regional congestion mitigation efforts that bolster bus priority and move more people more efficiently

- Reduced journey time for bus riders
- Increased on-time performance
- Increased ridership
- Increased frequency and decreased bus operating costs
- Improved corridor traffic conditions for all vehicles
- Improved regional productivity and competitiveness

Create an excellent customer experience to retain and increase ridership

Equip riders with high-quality, accurate, and easily accessible information to plan a trip

Ensure that accurate, real-time service information for all providers is available in one place

Make bus service easy to understand with legible maps and customer-friendly route names across providers

Expand marketing efforts to enhance visibility of bus options and benefits

Make paying bus fares easier

- Provide free transfers between bus and rail
- Provide reduced fare options for low-income riders
- O Create a mobile solution to plan and pay for trips in one place

Develop new regional passes that work across all providers, and make bus fares clear and understandable

Incentivize more employers to offer transit benefits

- Increased customer satisfaction
- More affordable transportation for residents that need it most
- Increased transit ridership
- Less congestion on our region's roads
- Reduced safety incident rates at bus stops and on buses
- Reduced environmental impact of transportation

Create an excellent customer experience to retain and increase ridership

Make it safer and more pleasant to ride the bus

Make bus stops and shelters safe, comfortable, accessible, and technology-enabled

Advance technology and programs that improve the safety of everyone on board by partnering with riders, bus operators, and unions

- Empower front-line staff to provide exceptional customer service
- Ensure that all buses meet the highest standards of comfort and cleanliness

Pursue innovation and bus improvement

- Advance new vehicle technologies to improve bus' environmental footprint and efficiency
- Establish a Regional Mobility Innovation Lab to systematically share knowledge and accelerate improvements such as service provision, customer experience, and bus operator and passenger safety

- Increased customer satisfaction
- More affordable transportation for residents that need it most
- Increased transit ridership
- Less congestion on our region's roads
- Reduced safety incident rates at bus stops and on buses
- Reduced environmental impact of transportation

Empower a publicly appointed Task Force to transform bus and lead the implementation of a truly integrated regional system

Convene a Task Force to oversee implementation of the Strategy and provide long-term leadership for the region's bus system

Purpose is to provide:

- Accountability
- Visibility
- High-Level Collaboration
- Regional Solutions to Regional Problems

Facilitate an independently published annual progress report on Bus Transformation Strategy implementation and a bus performance scorecard to track the level of service delivered to customers

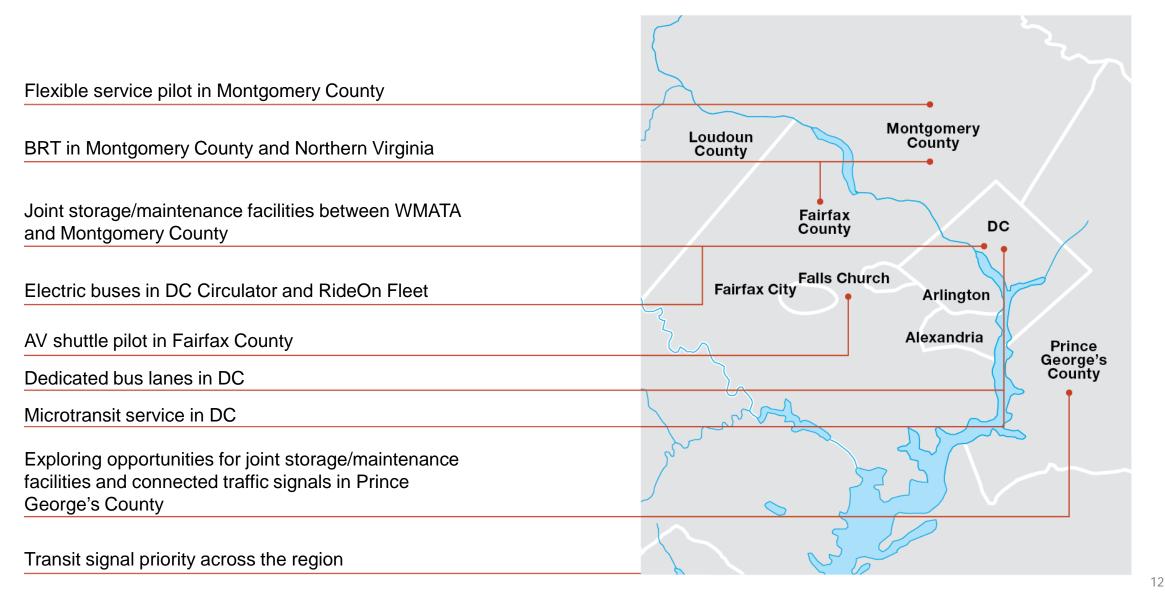

Develop a platform for rider feedback, administered by the Task Force, and an ongoing mechanism for incorporating feedback into regular revisions of the Strategy recommendations

- The public will experience a unified bus system that is customerresponsive
- **Customer representation** for strong customer accountability
- Integrated decision making and efficient use of public resources
- Better coordination of operations and facilities, services and guidelines

Examples of Activities Underway in the Region

Progress to date on all Strategy recommendations by agencies in the region is provided at <u>www.bustransformationproject.com</u>

Plan Of Action

		2020	2021	2022	2023	2024	2025	2026	2027	2028	2029

BusTransformationProject.com

Action Plan – Key Outcomes of Implementing the Bus Transformation Strategy

Customers will have...

- ...a more seamless experience using the region's transit system
- ...bus service that better matches their needs and demands
- ...faster and more reliable trips
- ...less expensive trips, especially low-income passengers
- ...accurate, easy-to-use, accessible information that makes it easy to use the region's transit system
- ...safer and more comfortable experience when riding and waiting for the bus
- ...a voice in shaping the Bus Transformation Strategy as it evolves

The region's transit system will see...

- ...increased ridership
- ...higher operating cost efficiency
- ...improved customer satisfaction
- ...less congestion on the region's roads
- ...reduced environmental impact of transportation
- ...better coordination in regional decision making

Next Steps to Transform the Bus

WMATA Safety and Operations Committee	12/12/2019
TPB Tech Committee	12/6/2019

Loudoun County Board	TBD
WSTC Board	Briefed via above meetings
Fairfax County Transportation Committee	5/12/2020

Present Strategy and seek
 endorsements from local and
 regional councils/boards on Strategy
 Empower Metro, bus providers,
 jurisdictions to:

- Lead on actions within their control
- Partner to implement regional actions

 Recognize current financial realities, while showing progress of a bus system that is a fast, frequent, reliable, affordable system that feels unified

The Strategy and Action Plan are available at bustransformationproject.com

Resolution: Leadership in Transforming the Bus

Actions where the District can Lead:

- Implement bus priority projects and enforcement
- Implement free transfers between Metrorail and Circulator
- Implement low income fare products for District residents
- Test and evaluate zero emissions buses for integration into the Circulator fleet
- Ensure that accurate, real-time information is available for Circulator services
- Continue to improve bus stops and shelters

Actions where the District can Partner with others in the Region:

- Study the restructuring of the Metrobus network to create an efficient and customer-focused network
- Establish service standards
- Collect and share operations and performance data
- Endorse the Bus Transformation Strategy

Appendix - Bus Provider and Agency Progress to Date on Recommendations

17 BusTransformationProject.com

Provide frequent and convenient bus service

Establish regional standards

Collaboratively restructure the region's bus network

Leverage existing efforts by transit providers to operate flexible on-demand services

Survey Findings: Progress to Date

WMATA developed service guidelines (2015) with the region, but not Board adopted. Other agencies have standards and/or performance metrics

AVL and APCs on most buses in region; Level and sophistication of data cleaning and analysis varies

Nothing has been done at a full regional level. VA agencies have and will continue to review entire network (by jurisdiction) through required TDP and TSP process. DC local bus study completed in 2014; Circulator TDP updated in 2017. Prince George's Transit Vision Plan

Progress made through first part of Bus Transformation Project

Montgomery County and DDOT have pilot programs. Other jurisdictions have studied it or are currently studying it. Prince George's has limited call-a-ride services open to all

Note: Checkmarks indicate some level of progress, not necessarily completion. Progress-to-date information is current as of October 2019. Refer to the full Action Plan for more details.
BusTransformationProject.com

Obtain commitments from state and local agencies (including roadway owners) to expedite bus priority

Implement enforcement policies that establish bus priority

Establish a capital program at WMATA that supports accelerated implementation

Support regional congestion mitigation efforts that bolster bus priority

Survey Findings: Progress to Date

No commitments exist to expedite bus priority measures. Implementation decisions implemented on a case by case basis. 2015 Metrobus service standards included priority. DDOT has made H&I Street bus lanes permanent, Arlington/Alexandria have Metroway, Fairfax Co and Montgomery working on several corridors

Traffic Incident Management Enhancement Taskforce (TIME) as part of TPB/COG. MCDOT, DDOT, VDOT, all expressed support for this. Plus "general agreement that it's good to pursue." TPB Bus Lane Enforcement Study from 2017. Varying implementations of automated enforcement allowed in different jurisdictions

No progress to date

Some work being done, e.g. DDOT study in FY20 budget. VDOT has congestion pricing on Express Lanes. MD is considering managed lanes

Note: Checkmarks indicate some level of progress, not necessarily completion. Progress-to-date information is current as of October 2019. Refer to the full Action Plan for more details.
BusTransformationProject.com

Create an excellent customer experience

Equip riders with high-quality, accurate, and easily accessible information

J: Real-time service information for all providers available in one place

K: Legible maps and customer-friendly route names across providers

L: Expand marketing efforts to enhance visibility of bus

Make paying bus fares easier.

M: Provide full transfer discount between bus and rail

N: Provide reduced fare options for lowincome riders

O: Create a mobile solution to plan and pay for trips in one place

P: Develop regional passes that work across all providers, and make bus fares clear and understandable

Q: Incentivize more employers to offer transit benefits

Survey Findings: Progress to Date

VA

All agencies report progress but not completely implemented at this time.

Other than the WMATA-published map, there are no system-wide maps. Have not started route renumbering

Bus marketing is thus far piecemeal on individual services - MD 355 Ride On 101, DC Circulator, etc.

WMATA proposed as part of FY21 operating budget

Various subsidy programs in multiple jurisdictions, and some free fares (e.g., CUE). DC/WMATA planning pilot

WMATA is working on a mobile payment solution

WMATA has added Metrobus to its monthly unlimited rail pass. Most bus operators in the region already accept the WMATA Weekly Unlimited Bus Pass

Many jurisdictions already have programs: Arlington, Fairfax, Alexandria, DC, and parts of Montgomery

Note: Checkmarks indicate some level of progress, not necessarily completion. Progress-to-date information is current as of October 2019. Refer to the full Action Plan for more details. BusTransformationProject.com

MD

DC

M

Create an excellent customer experience

Make it safer and more pleasant to ride the bus.

R: Make bus stops and shelters safe, comfortable, accessible, and technologyenabled

S: Advance technology and programs that improve the safety of everyone, partnering with riders, bus operators, and unions

T: Empower front-line staff to provide exceptional customer service

U: Ensure that all buses meet the highest standards of comfort and cleanliness

Pursue innovation and bus improvement.

V: Advance new vehicle technologies to improve bus' environmental footprint and efficiency

W: Establish a Regional Mobility Innovation Lab to systematically share knowledge and accelerate improvements

Survey Findings: Progress to Date

VDOT, WMATA, Fairfax County already have guidelines. City of Fairfax is in the process of developing. Alexandria and Prince George's use WMATA's standards

All agencies have passenger and driver safety features, and are planning for improvements

All providers include customer service in operator training efforts, although some are provided by the contractor. Alexandria and FCDOT have incentive programs

Operators have individual standards

Five agencies currently doing or moving toward electric bus procurement (WMATA, Circulator, Ride On, DASH, The Bus) with expected implementation around 2021. VDOT and DRPT are also moving forward with EV buses. AV shuttles being tested in VA

TPB Regional Public Transportation Subcommittee and WMATA JCC are two existing forums for ad-hoc information sharing

 - Note: Checkmarks indicate some level of progress, not necessarily completion. Progress-to-date information is current as of October 2019. Refer to the full Action Plan for more details.

 $\checkmark \checkmark \checkmark \checkmark \checkmark$

Convene a Task Force to oversee implementation of the Strategy and provide long-term leadership for the regional bus system with membership

\vee		
]	
-	/	

Annual progress report on Bus Transformation Strategy implementation and a bus performance scorecard

Develop a platform for rider feedback, administered by the Task Force, and an ongoing mechanism for incorporating feedback

Survey Findings: Progress to Date

No agencies have committed to date; revisit the structure and timing of this recommendation

Bus performance scorecard - some start from CSG report (just Metrobus in DC). Performance metrics are published by DASH, Metrobus, City of Fairfax, Fairfax County, MCDOT. DRPT and NVTC collect and publish performance metrics for all agencies

RACs exists at WMATA and Prince George's County. DASH is forming advisory committees. Other agencies have ways for riders to provide feedback on service

No survey question

Note: Checkmarks indicate some level of progress, not necessarily completion. Progress-to-date information is current as of October 2019. Refer to the full Action Plan for more details.
